

MAGNIFICA™

remote controlled electric screen

Utilizing the latest in technology including our Whisper Quiet motors, built-in RangePlus™ IR remote control, and display surfaces optimized for HD, the Magnifica offers you the most screen for your display investment.

The Best Features For Less. At RecordexUSA we don't believe in providing a basic screen and then making you add hundreds of dollars for optional remotes, switches and a longer warranty. That's why you'll find that all of our Magnifica™ electric screens offer what others claim to be deluxe or optional.

Attention To Every Detail. Screens are all about details. They must be made by hand using the latest in high precision equipment to guarantee uniformity. From white gloves to caliper level testing to ensure quality, all RecordexUSA screens must pass rigorous testing. Our factory is fully ISO 9001:2000 certified to guarantee our testing is exact and complete on every screen that we make. Screens up to 150" wide are UL Approved for US & Canada.

Beautiful, Practical Screen Surfaces. Magnifica Electric Screens feature our advanced Ultra3™ Matte White Fabric Surface with the time honored slightly textured screen surface professionals prefer. Perfect for fixed installations our Ultra3 Matte White surfaces boast up to 1.1 gain, a wide 160 degree viewing angle, anti glare technology, and standard black backing. You'll have beautiful fine color rendition, soft light, and virtually no visual fatigue even after hours of use. Plus it's very durable and easy to clean.

Tough As Nails, Beautiful to Behold. Utilizing our own extra strong MagTuf™ steel screen housings, all RecordexUSA electric screens are built for the rigors of commercial environments. Our hardened paints and finishes are both strong and scratch resistant, and compliment any décor or environment.

MaxFlat™ Design, Unparalleled Viewing Experience. All our screens are designed to virtually eliminate any of the surface anomalies of yesteryear's screens. Our Ultra3 Matte White Fabric Surface uses our MaxFlat finish and a 4-side light absorbing matte black border. Combined they give you an outstanding flat, crisp, maximum contrast surface that allows for an unparalleled viewing experience.

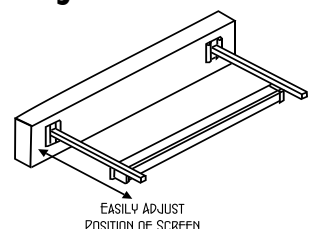

Ultra Quiet Electric Motor. Chances are you won't even hear it, but if you can you'll understand why we designed our motors to whisper, not whine. Simply smooth, trouble-free, and only from RecordexUSA.

RangePlus™ IR Remote Control Included Standard. Most manufacturer's tack on up to \$300 for their IR remote option. We say, who wants an electric screen without a remote? That's why every Magnifica Electric Screen comes standard with a 3-way wall switch and integrated IR receiver WITH a FREE RangePlus IR remote.

Popular Sizes & Ratios Always Available. From intimate to show-stopping sizes in your choice of 1:1, 4:3, or 16:9, our Magnifica electric screens offer the size and aspect ratio that will fit your application perfectly.

More Warranty At No Extra Charge. Double what most others provide, our 2-year warranty backs up our commitment to quality with extra peace of mind at no extra charge. And remember, since 1969 RecordexUSA has always been here to help you with any questions, requests, or service needs.

Recordex Magnifica Electric Screen Mounts

Model	Description	SKU
AXIS150	Deluxe Adjustable Wall Mount for Magnifica Electric Screens (6")	709991
AXIS460	Deluxe Adjustable Wall Mount for Magnifica Electric Screens (18")	709992
AXIS750	Deluxe Adjustable Wall Mount for Magnifica Electric Screens (30")	709993

* Note: Screens with nominal diagonal of 150" or greater are equipped with a tubular motor (motor in roller). These screens are also equipped with a mechanical limit adjustment in addition to the limit being able to be programmed via the remote control. The screens with a nominal diagonal less than 150" are equipped with a synchronous motor (motor in the end) and these motors do not have mechanically adjustable limit switches; the limits can be set only by the remote control.
