

ReTractTM RSR

**deluxe manual wall screen
with our regulated screen return system**

Utilizing the latest in technology including our ReTractTM RSR (regulated screen return) system, heavy-duty construction, and display surfaces optimized for HD, ReTractTM RSR screens offer you the most screen for your display investment.

Durability Meets Beauty. The ReTractTM RSR was built to meet the rigorous demands of the school or training environment. Optimized for HD sources, the ReTract offers a beautiful surface for today's visual learning experience.

Attention To Every Detail. Screens are all about details. They must be made by hand using the latest in high precision equipment to guarantee uniformity. From white gloves to caliper level testing to ensure quality, all RecordexUSA screens must pass rigorous testing. Our factory is fully ISO 9001:2000 certified to guarantee our testing is exact and complete on every screen that we make.

Four Perfect Borders Standard. We believe border framing a screen is a must, not an option. All ReTract RSR screens come standard with our 4-side light absorbing matte black border.

Ultra3 MatteWhite Surface. Our ReTractTM RSR Screens utilize our Ultra3 Matte White surface finish that offers up to 1.1 gain and 160 degree viewing angle. They are the perfect classroom companions providing excellent display qualities for virtually any video source. And its easy to clean for long term use.

MaxFlatTM Design, Unparalleled Viewing Experience. Manufactured using our exclusive MaxFlat process, our surfaces are designed to virtually eliminate the surface anomalies of yesteryear's screens.

Regulated Screen Return Makes A Professional Impression. Our RSR feature means your ReTractTM RSR screen will return to the housing at a steady controlled pace. Simply pull down and then let go, and the screen will return to the housing gently, hands-free. Perfect for any manual screen application.

So Many Size & Ratios, Even The New 16:10 format. From intimate to show-stopping sizes in your choice of 1:1, 4:3, 16:9, and now 16:10. Retractable's are ready for virtually any installation.

Convenient Wall or Ceiling Mount Design . Our flexible mounting system allow for easy installation whether you are planning to mount your ReTractTM RSR screen from the ceiling or the wall. We also carry a range of mounting brackets for away-from-wall installations.

Committed to Providing a Greener Future For Our Children. All RecordexUSA screens are manufactured in compliance with RoHS Directive 2002/95/EC (Restriction Of the use of certain Hazardous Substances in electronic equipment). This compliance helps to ensure a healthier and greener environment for all our children.

More Warranty At No Extra Charge. Double what most others provide, our 2-year warranty backs up our commitment to quality with extra peace of mind at no extra charge. And remember, since 1969 RecordexUSA has always been here to help you with any questions, requests, or service needs. * Note: 3-Year Warranty for Education Customers (Schools)

Regulated Screen Return ensures that your manual wall screen retracts at a slow controlled pace. Without RSR the screen can “get away from you” when you are putting the screen up, similar to how a roller window shade will “thwack” up if you let it go. To prevent this and prolong screen life we offer our manual wall screens with our premium RSR feature.

PRODUCT SPECIFICATION STATEMENT (screens less than 80 inches wide)

Hexagon case of 22 gauge steel, flat back design, with painted scratch-resistant white finish. Shatter resistant, injection molded plastic end caps are matching white color with integrated wall/ceiling mounting brackets. Smooth, spring controlled locking allows for screen to be set to desired length. RSR feature provides steel bearing controlled slow return. Ultra3 matte white viewing surface is standard offering 1.1 gain and 160 degree viewing angle, flame and mildew resistant. Surface attached to one-piece rigid steel roller. Bottom of viewing surface attached to roll formed steel dowel, finished white. Shatterproof plastic slat tips are used to cover the ends of the slat. Up to 200" screens feature a seamless viewing area while greater than 200" screens feature a center seam. Black borders are included on all four sides of the screen surface to provide added picture contrast. A manual pull down ring is riveted to provide convenient, secure pulldown. 37" pull cord to aid pull down is standard.
