

Recordex StudioWrapper™

Professional Finish DVD & CD Case Overwrappers

*Available in CD, DVD or Slimline DVD models

Professional Clean Folded Edges!

Get professional clean folded edges for just pennies per disc. No longer settle for hot-gun shrink wrapped discs that still look unprofessional even after you've spent time and money to seal them. Use an overwrapper for that 'store-bought' professional look!

Wrap Hundreds of Discs Per Hour

In a matter of minutes you'll develop your own rhythm for wrapping discs and then you'll be amazed at just how many you can wrap in an hour. With just a little practice you'll be wrapping 3 to 6 cases per minute!

Amazingly Easy to Use

With only a little practice you'll be wrapping hundreds of discs an hour with the StudioWrapper. The free video tutorial on our web site will make easy work of learning how to wrap your discs most efficiently!

Six Month Warranty

Nobody understands service like Recordex™, and we'll prove it with our Standard Six-Month No Hassle Warranty.

Table Top Design

The base is only 24" wide and 19" deep allowing for easy setup in your office or production area. The extra-long 7-foot power cord makes it easy to setup the wrapper nearly anywhere in the office.

Finally A Truly Affordable Option

With semi-automated wrappers selling for nearly \$5,000 and other manual wrappers selling for \$2,500 the StudioWrapper is an amazing value at under \$1,500!

Uses Convenient Pre-Cut Poly Wrap Sheets

Recordex DVD and CD film comes pre-cut to the exact size you need to professionally and quickly wrap Amaray-style DVD cases, slimline DVD cases and standard CD jewel cases.

Operator Safe Design

The StudioWrapper features heater-block guards, an inline fuse as well as an indicator light to remind the operator that the unit is on and the heater blocks are hot.
